Experience

Software Engineer - Full Stack
Q2

2019-Present
Austin, TX

Design asynchronous microservices (full-stack & REST APIs), produce well-tested modular code, and train incoming engineers for Stifel Bank.

- Developed SAML Identity Provider to integrate with AWS Cognito and create a Single sign-on experience for client's third party services.
- Built internal SSH tunneling tool to enable end-to-end testing with development bank Cores, increased development cycle time by ~33%.
- Developed Member Selection SSO service as a reusable base package for purchase by customer, cut custom development cycle time by ~60%.
- Awarded Q2 Premier Services highest client satisfaction (2020) and Premier Services most innovative project (2020).

SAP CCA Developer
General Motors

2014-2019
Austin, TX

Build, maintain, and upgrade new SAP systems. Deliver product enhancements, devise technical solutions for EWM, SPP, CRM, BI/BW, and Basis SAP modules.

- Design BW InfoProviders, data extractors, and BEX queries for warehouse data reporting.
- Program reports on Inbound and Outbound order processes using ABAP ALV output.
- Output Management SME (Loftware Labeling) SAP EWM Global Warehouse Management product implementation.
- Led Operational Excellence (Opex) Warehouse Efficiences project.
- Built SAP Product Demand Planning (SPP), Enterprise Inventory Sensing (EIS), and HANA Database systems.

SAP OpEx (Intern)
Alcon Labs

2013
Fort Worth, TX

Documented SAP systems architecture, oversaw support tickets in BMC Remedy support systems.
